Computer Skills

Quantitative Methods I

Agenda

- Benefits of the Computer Skills Course
- Outline
- Excel preparations
- Outline of week 1
  1. Entry tests for mathematics and statistics
  2. Setting up SOWISO and MyLab

Outline

Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
• Setting up software • Entry tests	• Excel assignment no. 1 • Survey self-regulated learning	• Excel assignment no. 2	• Excel assignment no. 3 • Survey, part 2	• Excel assignment no. 4	• Student Project, part 1 • Survey, final part	• Student Project, part 2

Outline of week 1

1. Get to know the UM computer systems, Excel, and SOWISO and MyLab (recommended)
2. Entry tests

1. Excel preparations

Step 1: **Excel in English**

- Computers at library

  or

- "**Student Desktop Anywhere**" http://library.maastrichtuniversity.nl/services-and-facilities/remote-access/

Step 2: **Activate add-inns**

- File/Options/Add-Inns/Go.../Check "Analysis Toolpak" and "Analysis Toolpak-VBA"/Click OK
  → See *Setting up your digital tools* in the welcome module on Canvas

1. Excel orientation

If you have not used Excel before, please take some time to find out what it can do for you, and how to let it do so.

There are beautiful tutorials in the internet. One fine example is:

https://edu.gcfglobal.org/en/excel/

Starting week 2, we will assume some mastery of Excel in doing the Excel assignments.

2. Entry tests

- These are not graded. Their only purpose is to find out where you stand at the start of the course (for you, and for us)
- Find them on Canvas

Canvas → Quantitative Methods 1 → Modules → Week 1 → Computer skills → Math/Stats Entry Test

Done before the end of the session?

- Ask your tutor to check your work
- Once they approve your work, you are free to leave
